

0288 '01 MAR 13 P1:43

Dear Commissioner,

It is crucial that all GE foods and ingredients are labelled so that we have a choice as to what we want to eat and we can be informed as to what we are eating. I can't imagine it any other way in a democracy.

Of course GE foods should be subject to pre-marketing safety testing!

And there should be a moratorium on GE foods until longterm studies prove them to be safe for human consumption and the environment.

Please don't make the same mistakes we have in the past. All of us should have the simple and basic right to know what we are eating!

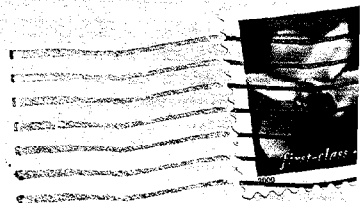

sincerely,  
brennan michaels
